EDUCATION

National University of Computer and Emerging Sciences (FAST NUCES) Bechler's of Sciences in Computer Science; GPA: 3.13	August 2021 - Present
Beaconhouse college program A levels in Computer Science; 2A*,1A,1B	April 2019 - June 2021

Honors and Awards

Dean's List Achieved Dean's List recognition in Fall 2021, Spring 2021, and Fall 2022 for outstanding academic performance.	
International Collegiate Programming Contest Participated in ICPC 24-25 an annual multi-tiered competitive programming competition.	September 2024
FAST Problem-Solving Competition Top 3 in FPSC. Solved about 5+ hard problems and finished in top 3, among 20+ teams.	March 2023

SKILLS SUMMARY

• Languages:	C++, C#, Python, SQL, JavaScript
• Frameworks:	Flask, React.js, Express.js, Node.js, FAST API, TensorFlow, Pytorch, LangChain
• Tools:	Git, XAMPP, Postman, Pandas, OpenCV, Ollama, llama.cpp, Stripe API, ChromaDB, SQLite
• Platforms:	Ubuntu, MongoDB, MySQL, RAG

WORK EXPERIENCE

Machine Learning Internship Arch Technologies - Fine-tuned LLaMA 3.2 (3B) on medical datasets using LoRA, enhancing reasoning accuracy by 12% (ROUGE). - Implemented AI-driven models for NLP, image processing, and recommendation systems, leveraging TensorFlow, PyTorch, and LangChain. Also designed and maintained secure REST APIs.	March 25 - Present
--	---------------------------

PROJECTS

Wisdom Wave LLM based Web App LINK - AI platform delivering personalized, textbook-based answers to enhance learning and collaboration. - Integrated llama 7B though Ollama for efficient LLM handling, using React.js frontend, Flask backend, ChromaDB for vector storage, and cloud databases like MongoDB - Implemented RAG with LangChain and llama.cpp to analyze the textbooks and past papers.	August 24 - Present
Theekro.com Rental Service Platform LINK 2024 - Developed Web that connects user with professional home service provider, including plumbers, electricians, and technicians. - Implemented user authentication, service browsing, and booking functionalities to enhance user engagement. - Built with a React.js frontend and Node.js backend, utilizing MongoDB for efficient data management.	February 24 - August
Talk to Schedule LINK - An app that uses Whisper AI to convert speech into text and automatically generates a daily schedule from spoken input. - Developed a voice-based scheduling assistant using Whisper AI that converts audio input into text and automatically extracts and organizes date and time information to create a personalized schedule.	January 2025
Career Connect LINK 2023 - Developed a job portal with AI-powered matching and resume parsing using Python/Flask. - Built employer dashboards and dynamic UI with Next.js, Tailwind CSS, and Firebase auth. - Integrated MongoDB for job/user data storage and Express.js for REST APIs.	July 23- November

Academic Experience

Teaching Assistant (TA) Provided academic support in Programming Fundamentals, OOP, Data Structures, Algorithms and Linear Algebra assisting 600+ students and 10+ faculty members.	August 2022 - Present
--	------------------------------

Volunteer Experience

FCAP (FAST Club of App Development & Programming) Co Marketing Head of Society (Leading around 100+ students currently)	March 2023 - Present
--	-----------------------------
